

VivoVivo™ Laser Capture Microdissection (LCM) Services

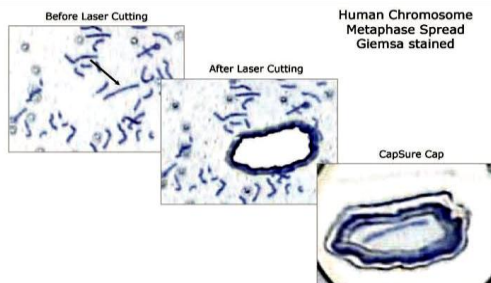

Why Choose VivoVivo™ LCM Services?

- One -Stop full histo/pathology and LCM services
- Superior quality and competitive pricing
- Prompt turnaround time
- Leading international LCM experts
- State-of-the art Arcturus XT™ LCM System
- Free pickup for local customers

Our Services

- LCM/LMD associated contract research projects
- Frozen and FFPE sample LCM/LMD
- Immunostain (IHC/IF) positive cell LCM/LMD
- Live cell microdissection
- Plant Cell LCM/LMD
- Downstream analysis of dissected samples

Our LCM Expert

Mike Emmert-Buck, MD, PhD, Pathologist

- ❖ World-renowned physician-scientist and leading international expert on LCM
- ❖ Former Chief, PGU, Laboratory of Pathology and Director, LCM Core Laboratory at NIH,
- ❖ Co-inventor of first generation of Arcturus LCM system.
- ❖ Author and editor of the book “Dissecting the Molecular Anatomy of Tissue”.
- ❖ Over 200 publications

John W. Gillespie, MD, Pathologist

- ❖ Former principal scientist at NIH/NCI
- ❖ Expertise in histological interpretation of tissue, LCM and molecular pathology
- ❖ 20 years of hand-on experience in LCM
- ❖ Author of 8 LCM related reviews or book chapters
- ❖ Over 30 publications entailing the use of laser microdissection

Johnson Wang, MD, PhD

- ❖ 14-years of hand-on experiences in histology, molecular histopathology, LCM, animal model, cancer research and stem cells at NIH and industrial
- ❖ Over 65 peer-reviewed publications including 2 LCM-related papers.
- ❖ Former director of Division of Pulmonary Medicine, Guilin Medical University in China
