

Material Safety Data Sheet Revision Date: 01-14-2023

Kit Name: In Situ TUNEL DAB Apoptosis Detection Kit (50 Assays) SKU#: VB-4005D

Components:	
VB-4005D-1	Protein K stock Solution (20×)
VB-4005D-2	1× Proteinase K working buffer
VB-4005D-3	TdT equilibration buffer
VB-4005D-4	TdT enzyme
VB-4005D-5	Biotinylated dUTP
VB-4005D-6	RTU Streptavidin-HRP
VB-4005D-7	DAB stock solution (40×)
VB-4005D-8	Stable DAB buffer
VB-4005D-9	TUNEL positive FFPE slides

VB-4005D-1 Proteinase K Stock Solution (20×) MSDS

1. Identification of the Substance/Mixture and Company		
Product Name Catalog# Product Description	Proteinase K Stock Solution (20×) VB-4005D-1 Component	
Manufacturer/Supplier	VitroVivo Biotech, LLC. 405 E Gude Dr., Suite 214, Rockville, MD 20850	
Tel/fax Number	Phone: 301-500-0499; Toll free: 1-800-260-9817 Fax: 844-248-6208	

2. Hazards Identification

Hazard Classification

Skin corrosion/irritation - Category 2 Serious eye damage/eye irritation - Category 2A Skin sensitizer - Category 1 Respiratory Sensitizer - Category 1 Specific Target Organ Toxicity Single Exposure - Category 3

Label Elements

Hazard Symbols Signal Word: Danger

Hazard Statements

Causes serious eye irritation. Causes skin irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled. May cause an allergic skin reaction. May cause drowsiness and dizziness. May cause respiratory irritation.

Precautionary Statements

Prevention

Wear eye/face protection. Use only in well-ventilated areas. Wear protective gloves. In case of inadequate ventilation wear respiratory protection.

3. Composition/information on ingredients

Mixtures Description: Mixture of the substances listed below. **Composition:**

Component	CAS#
Proteinase K	39450-01-6
Tris	77-86-1
EDTA	60-00-04
Glycerol	56-81-5

4. First Aid Measures

Description of necessary first-aid measures

Eyes

Immediately flood the eye with plenty of water for at least 15 minutes, holding the eye open. Obtain medical attention if soreness or redness persists.

Skin

Wash affected area with plenty of water. Seek medical attention if symptoms persist.

Ingestion

Do not induce vomiting. Have victim drink 1-3 glasses of water to dilute stomach contents. Never administer anything by mouth if a victim is losing consciousness, is unconscious or is convulsing. Obtain medical attention immediately.

Inhalation

Remove from exposure. If there is difficulty in breathing, give oxygen. Obtain medical attention if symptoms persist.

Most important symptoms/effects, acute and delayed

Aside from the information found under description of necessary first aid measures (above) and Indication of immediate medical attention and special treatment needed, no additional symptoms and effects are anticipated.

Indication of immediate medical attention and special treatment needed Notes to Physicians

Treat symptomatically.

5. Firefighting Measures

Suitable (and unsuitable) Extinguishing Media

Use foam, dry chemical or carbon dioxide. Use water spray for surroundings and containers.

Specific hazards arising from the chemical

None known.

Special Protective Actions for Fire-Fighters

Wear full protective clothing and self-contained breathing apparatus

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Wear appropriate protective clothing.

Environmental Precautions

Prevent the material from entering drains or watercourses.

Methods and materials for containment and cleaning up

Contain and absorb using earth, sand or other insert material. Transfer into suitable containers for recovery or disposal.

7. Handling and Storage

Precautions for safe handling

Wear appropriate protective equipment when handling. Do not eat or drink while handling this material.

Conditions for safe storage

Store at room temperature away from heat and direct sunlight

8. Exposure Controls/Personal Protection

Control parameters

Exposure limits are listed below, if they exist.

Proteinase K None established.

None established.

Appropriate engineering controls No specific measures necessary.

Individual protection measures Respiratory Protection

Respiratory protection not normally required.

Skin Protection

Chemical resistant gloves Eye/Face Protection Chemical goggles or safety glasses with side shields

Body Protection

Normal work wear.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Physical State: Liquid Appearance: clear, colorless Odor: odorless pH: 8.0 Vapor Pressure: Not available. Vapor Density: Not available. Evaporation Rate: Not available. Viscosity: Not available. Boiling Point: Not available. Freezing/Melting Point: Not available. Decomposition Temperature: Not available. Solubility: Soluble. Specific Gravity/Density: Not available. Molecular Formula: Solution Molecular Weight: Not available.

10 Stability and Reactivity

Reactivity No known reactivity.

Chemical Stability

Stable under normal conditions.

Possibility of hazardous reactions Hazardous polymerization will not occur.

Conditions to Avoid

Heat – high temperatures

Incompatible Materials Strong acids – alkalines – oxidizing agents

Hazardous Decomposition Products

None known

11. Toxicological Information

Acute Toxicity

No data available to indicate product is acutely toxic.

Specific Target Organ Toxicity (STOT) - single exposure

Available information indicates this product may cause respiratory irritation.

Specific Target Organ Toxicity (STOT) - repeat exposure

No data available to indicate product or components will cause target organ effects after repeated exposure.

Serious Eye damage/Irritation

Available information indicates this product causes serious eye irritation.

Skin Corrosion/Irritation

Available information indicates this product causes skin irritation.

Respiratory or Skin Sensitization

Available information indicates this product can cause skin or respiratory sensitization.

Carcinogenicity

No data available to indicate product may present a carcinogenic hazard.

Germ Cell Mutagenicity

No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Reproductive Toxicity

No data available to indicate either product or components present at greater than 0.1% may cause reproductive toxicity or birth defects.

Aspiration Hazard

Not an aspiration hazard.

	12. Ecological Information	
Ecotoxicity No relevant studies identified.		
Mobility in soil		

Mobility in soil No relevant studies identified.

Persistence/Degradability

No relevant studies identified.

Bioaccumulative Potential

No relevant studies identified.

Other adverse effects

No relevant studies identified.

13. Disposal Considerations			
Waste treatment methods			
General information	When handling waste, the safety precautions applying to handling of the		
	product should be considered.		
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the		
	requirements of the local Waste Disposal Authority.		
14. Transport Information			
DOT CFR 172.101 Data	Not Regulated		
UN Proper Shipping Name Not Regulated			
UN Class None. UN Number None.			
UN Packaging Group	None.		
Classification for AIR Transportation (IATA) Consult current IATA Regulations prior to shipping by air.			
Environmental Hazards	Not a marine pollutant		
15. Regulatory Information			

United States TSCA Inventory

This product is exempt from listing on the US Toxic Substance Control Act (TSCA) Chemical Substance Inventory.

Canada DSL Inventory

This product is not listed on the Domestic Substance List (DSL).

WHMIS Classification D2A.D2B

This product was classified in accordance with the hazard criteria of the Canadian Controlled Products Regulations and the MSDS contains all the information required by these regulations.

SARA Title III Sect. 311/312 Categorization

Immediate (Acute)

16. Other Information

This information contained herein is believed to be accurate but is not warranted to be so. Data and calculations are based on information furnished by the manufacturer of the product and manufacturers of the components of the product. Users are advised to confirm in advance of need that information is current, applicable and suited to the circumstances of use. Vendor assumes no responsibility for injury to vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Furthermore, vendor assumes no responsibility for injury caused by abnormal use of the material even if reasonable safety procedures are followed. Any questions regarding this product should be directed to the manufacturer of the product as described in Section 1.

Abbreviations and acronyms:

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
IMDG: International Maritime Code for Dangerous Goods
DOT: US Department of Transportation

VB-4005D-2 1× Proteinase K working Buffer MSDS

1. Identification of the Substance/Mixture and Company		
Product Name Catalog# Product Description	1× Proteinase K working buffer VB-4005D-2 Component	
Manufacturer/Supplier	VitroVivo Biotech, LLC. 405 E Gude Dr., Suite 214, Rockville, MD 20850	
Tel/fax Number	Phone: 301-500-0499; Toll free: 1-800-260-9817 Fax: 844-248-6208	
2. Hazards Identification		

Classification of the substance or mixture

Appearance: clear, colorless liquid

Caution! May cause eye, skin, and respiratory tract irritation. This is expected to be a low hazard for usual handing. **Target Organs**: none

Potential Health Effects

Eye: May cause eye irritation.Skin: May cause skin irritation.Ingestion: May cause respiratory of the digestive. Low hazard for usual industrial handing.Chronic: No information found.

3. Composition/information on ingredients

Mixtures Description: Mixture of the substances listed below. Composition:

CAS#
60-00-4
1185-53-1

4. First Aid Measures		
Eye Contact	Rinse thoroughly with plenty of water, also under the eyelids. Get medical qattention if symptoms occur.	
Skin Contact	Rinse skin with water. Get medical attention if symptoms occur.	
Inhalation	Remove to fresh air. Get medical attention if symptoms occur. If not breathing, give artificial respiration.	
Ingestion	Do NOT induce vomiting. Get medical attention.	
Most important symptoms and effects No information available.		
Notes to Physician	Treat symptomatically	
	5. Firefighting Measures	
Suitable Extinguishing Media	Substance is nonflammable; use agent most appropriate to extinguish surrounding fire.	
Unsuitable Extinguishing Media Flash Point	No information available Not applicable Method – No information available	
Autoignition Temperature Explosion Limits	No information available

Specific end use	Specific end use(s)		

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

8. Exposure Controls/Personal Protection

Control parameters

Ingredients with workplace control parameters Contains no substances with occupational exposure limit values.

Exposure controls

Appropriate engineering controls

Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face after working with substance.

Personal protective equipment

Eye/face protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses

Skin protection

required Body Protection protective clothing

Respiratory protection

required when vapours/aerosols are generated. Our recommendations on filtering respiratory protection are based on the following standards: DIN EN 143, DIN 14387 and other accompanying standards relating to the used respiratory protection system.

Control of environmental exposure

Do not let product enter drains.

9. Physical and Chemical Properties

Physical State	Liquid
Appearance	Colorless
Odor	Odorless
Odor Threshold	No information available
рН	8.0
Melting Point/Range	No data available
Boiling Point/Range	No information available
Flash Point	No information available
Evaporation Rate	No information available
Flammability (solid,gas)	Not applicable
Flammability or explosive limits	
Upper	No data available
Lower	No data available
Vapor Pressure	No information available
Vapor Density	No information available
Specific Gravity	No information available
Solubility	No information available
Partition coefficient; n-octanol/water	• No data available
Autoignition Temperature	No information available
Decomposition Temperature	No information available
Viscosity	No information available
-	

10 Stability and Reactivity

Reactivity

No data available

Chemical stability

The product is chemically stable under standard ambient conditions (room temperature).

Possibility of hazardous reactions

Violent reactions possible with: The generally known reaction partners of water.

Conditions to avoid

no information available

Incompatible materials Strong oxidizing agents

Hazardous decomposition products

In the event of fire: see section 5

11. Toxicological Information

Information on toxicological effects

Mixture Acute toxicity Inhalation Dermal Skin corrosion/irritation

No data available No data available No data available No data available

Serious eye damage/eye irritation Respiratory or skin sensitization Germ cell mutagenicity Carcinogenicity	No data available Mixture may cause an allergic skin reaction. No data available
IARC:	No ingredient of this product present at levels greater than or equal to 0.1% is
	identified as probable, possible or confirmed human carcinogen by IARC.
NTP:	No ingredient of this product present at levels greater than or equal to 0.1% is
	identified as a known or anticipated carcinogen by NTP.
OSHA:	No component of this product present at levels greater than or equal to 0.1% is
	on OSHA's list of regulated carcinogens.

Other adverse effects	No data available	
13. Disposal Considerations		

Waste treatment methods

Product

Waste material must be disposed of in accordance with the national and local regulations. Leave chemicals in original containers. No mixing with other waste. Handle uncleaned containers like the product itself. See www.retrologistik.com for processes regarding the return of chemicals and containers, or contact us there if you have further questions.

14. Transport Information		
DOT(US)	Not dangerous goods	
IMDG	Not dangerous goods	
IATA	Not dangerous goods	
Further information	Not classified as dangerous in the meaning of transport regulations.	

15. Regulatory Information

SARA 302 Components

This material does not contain any components with a section 302 EHS TPQ.

SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

SARA 311/312 Hazards

No SARA Hazards

Massachusetts Right To Know Components

No components are subject to the Massachusetts Right to Know Act.

16. Other Information

This information contained herein is believed to be accurate but is not warranted to be so. Data and calculations are based on information furnished by the manufacturer of the product and manufacturers of the components of the product. Users are advised to confirm in advance of need that information is current, applicable and suited to the circumstances of use. Vendor assumes no responsibility for injury to vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Furthermore, vendor assumes no responsibility for injury caused by abnormal use of the material even if reasonable safety procedures are followed. Any questions regarding this product should be directed to the manufacturer of the product as described in Section 1.

VB-4005D-3 TdT equilibration buffer MSDS

	1. Identification of the Substance/Mixture and Company
Product Name Catalog# Product Description	TdT equilibration buffer VB-4005D-3 Component
Manufacturer/Supplier	VitroVivo Biotech, LLC. 405 E Gude Dr., Suite 214, Rockville, MD 20850
Tel/fax Number	Phone: 301-500-0499; Toll free: 1-800-260-9817 Fax: 844-248-6208
	2. Hazards Identification

CHIP

For Cacodylic Acid, Sodium Salt, Trihydrate: Toxic, Dangerous for the Environment. For Cobalt Dichloride Hexahydrate: Carcinogen, Category 2.

HCS

For Cacodylic Acid, Sodium Salt, Trihydrate: Toxic, Carcinogen Category 1 (Arsenic Compounds). For Cobalt Dichloride Hexahydrate: Carcinogen Category 2B

	3. Composition/information on ingredients
Mixtures Description:	Mixture of the substances listed below.
Composition:	
Compor	nent CAS#
Sodium	cacodylate, trihydrate 6131-99-3
Cobalt d	ichloride, hexahydrate 7791-13-1
	4. First Aid Measures
EYES:	Flush with water for 15 minutes. Seek medical advice if irritation persists.
SKIN:	Flush with water, then wash thoroughly with soap and water. Remove contaminated clothing and wash before reuse. Seek medical attention if irritation persists.
INHALATION:	Remove the victim from exposure and move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Keep victim quiet and warm. Seek immediate medical attention.
INGESTION:	Drink water and seek immediate medical attention. Avoid alcoholic beverages. Never give anything by mouth to an unconscious person.

5. Firefighting Measures

Use media suitable to extinguish the supporting or surrounding fire. Wear NIOSH (or equivalent) approved self contained breathing apparatus. For small fires only: use carbon dioxide, dry powder or foam. Emits toxic fumes under fire conditions.

Flash Point = No data available.

6. Accidental Release Measures

General Information

Wear appropriate personal protective equipment and clothing including lab coat, safety glasses, gloves and NIOSH approved respirator. Collect in a manner that does not create dust and place in a suitable waste container. Avoid contact of material with skin or eyes. Use adequate ventilation

7. Handling and Storage

Handling

Wash thoroughly after handling. Wash thoroughly after handling. Avoid contact with eyes, skin, and clothing. Keep container tightly closed. Avoid ingestion and inhalation. Use with adequate ventilation.

Storage

Store at -20°C away from incompatible material.

8. Exposure Controls/Personal Protection

Wear appropriate personal protective equipment and clothing including lab coat, safety glasses, gloves and NIOSH approved respirator. A qualified industrial hygienist should evaluate the need for respiratory protection. Use respiratory protection approved by NIOSH (or equivalent) and appropriate to the hazard. Avoid contact of material with skin or eyes. Mechanical ventilation or local exhaust as needed to control exposure to dust, vapors or mists. Access to a safety shower and eye-wash.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Physical State: Liquid
Appearance: clear
Odor: odorless
pH: Not available.
Vapor Pressure: Not available.
Vapor Density: Not available.
Evaporation Rate: Not available.
Viscosity: Not available.
Boiling Point: Not available.
Freezing/Melting Point: Not available.
Decomposition Temperature: Not available.
Solubility: Soluble.
Specific Gravity/Density: Not available.
Molecular Formula: Solution
Molecular Weight: Not available.

10 Stability and Reactivity

Product is stable. Hazardous decomposition products include hydrogen chloride gas, arsenic hydride and oxides of carbon, sodium, cobalt and arsenic. Incompatible with strong oxidizing agents, alkali metals and strong bases. Hazardous polymerization will not occur.

11. Toxicological Information

EFFECTS OF OVEREXPOSURE FOR CACODYLIC ACID, SODIUM SALT, TRIHYDRATE:

EYES:	Contact may cause irritation with itching, burning and watery eyes. May cause conjunctival damage.
SKIN:	May be harmful if absorbed through skin. Contact may cause irritation with redness and pain.
INHALATION:	Toxic if inhaled. May cause irritation of the upper respiratory tract and mucous membranes. May cause pulmonary edema.
INGESTION:	Toxic if swallowed. May cause gastrointestinal irritation with nausea, vomiting and diarrhea. May cause liver and kidney damage.
TARGET ORGAN(S): ADDITIONAL INFORMATION:	Kidneys, Liver, Brain, Skin, Bone Marrow, Nervous System, Heart and Lungs. May be fatal if swallowed or inhaled. This material contains arsenic which is a known human carcinogen and may be teratogenic based on effects in laboratory animals. Pure Arsenic is listed as toxic by inhalation and if swallowed in the CHIP regulations. The user should note the increased hazards for arsenic compounds and take appropriate precautions. Prolonged exposure to arsenic compounds may cause exfoliation and pigmentations of the skin, inflammation of nerves and nasal septum ulceration. Other symptoms may include dry mouth,

metallic taste, drowsiness, loss of appetite, tremors, convulsions, respiratory arrest, muscle spasms, loss of hair and garlic odor to the breath and perspiration.

Reproductive effects and toxicity data listed in RTECS under CH7890000. Reproductive effects: Fertility - post-implantation mortality (e.g. dead/or resorbed implants per total number of implants)(1981).

EFFECTS OF OVEREXPOSURE FOR COBALT DICHLORIDE HEXAHYDRATE:

EYES:	Contact may cause irritation.		
SKIN:	Contact may causes irritation. May cause skin sensitization, an allergic reaction, which becomes evident upon re-exposure to this material.		
INHALATION:	Causes delayed lung injury. May cause irritation of the upper respiratory tract and mucous membranes. May cause asthmatic attacks due to allergic sensitization of respiratory tract.		
INGESTION:	Harmful if swallowed. May cause gastrointestinal irritation, nausea, vomiting & diarrhea.		
TARGET ORGAN(S):	Thyroid, Skin, Male Reproductive System, Heart, Kidneys, Pancreas, Blood and Lungs.		
ADDITIONAL INFORMATION:	May be harmful if inhaled or absorbed through the skin. Cobalt compounds may cause cancer based on animal studies. May cause blood abnormalities and/or lung damage. Adverse reproductive effects have been reported in animals. Mutagenic effects have occurred in experimental animals.		
Reproductive effects, mutation and	toxicity data listed in RTECS under GG0200000.		
Toxicity data:	Oral Rat LD50 = 766 mg/kg (1982). Toxic effects may include tremor, hypermotility, diarrhea and weight loss or decreased weight gain. Skin Rat LD50 = >2 gm/kg (1998). Details of toxic effects not reported other than lethal dose value.		
Carcinogenic data -	IARC Cancer Review: Human Inadequate Evidence (1991). Group 2B - Agent is possibly carcinogenic to humans (1991). ACGIH TLV-TWA - Confirmed animal carcinogen (2007).		
Definition(s):	RTECS = Registry of Toxic Effects of Chemical Substances. IARC = International Agency for Research on Cancer.		
12. Ecological Information			

Toxicity

Toxic to aquatic organisms. May cause long-term adverse effects in aquatic environment

13. Disposal Considerations		
Waste treatment methods		
General information	When handling waste, the safety precautions applying to handling of the product should be considered.	
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.	
14. Transport Information		

US DOT / IATA: Arsenic compound, liquid, n.o.s. (Sodium cacodylate solution) Class 6.1, UN1556, PG III, Label=Toxic.

15. Regulatory Information

RCRA - No applicable information. SARA 302 - For Cacodylic Acid, Sodium Salt (CAS# 124-65-2): TPQ = 100/10,000 lb; RQ = 100 lbs. SARA 313 - This material contains Cacodylic Acid, Sodium Salt (listed as Arsenic organic compounds), 10.7%, (CAS# 6131-99-3) and Cobalt Dichloride Hexahydrate (listed as Cobalt inorganic compounds), 0.12%, (CAS# 7791-13-1) which are subject to the reporting requirements of Section 313 of SARA Title III and 40 CFR Part 373. EPA TSCA Section 8(b) - CAS# 6131-99-3 and 7791-13-1 are not specifically listed on the

TSCA Inventory since they are hydrates. These materials are considered listed if the CAS# for the anhydrous forms appear on the inventory (40CFR720.3(u)(2)). California Proposition 65 - This product is or contains chemical(s) known to the State of California to cause cancer.

16. Other Information

This information contained herein is believed to be accurate but is not warranted to be so. Data and calculations are based on information furnished by the manufacturer of the product and manufacturers of the components of the product. Users are advised to confirm in advance of need that information is current, applicable and suited to the circumstances of use. Vendor assumes no responsibility for injury to vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Furthermore, vendor assumes no responsibility for injury caused by abnormal use of the material even if reasonable safety procedures are followed. Any questions regarding this product should be directed to the manufacturer of the product as described in Section 1.

	water for at least 15 minutes, occasionally lifting the lower and upper lids. Seek medical attention immediately.		vision.	
Ingestion:	Seek medical attention immediately. Never give an unconscious person anything by mouth.		Possible gastrointestinal irritation causing nausea,	
Inhalation:	diarrhea and vomiting. If a person inhales large amounts of the product move the exposed person to fresh air at once. If breathing is difficult or stops seek immediate medical attention. diarrhea and vomiting. Possible respiratory tract and mucous membrane irritation. If aspirated, may result in lipoid pneumonia.			
Skin Contact:	If the product contacts the skin, immediately flush the contaminated skin with mild soap and water. If this chemical penetrates clothing immediately remove the clothing and flush the skin with water. Seek medical attention immediately.		Possible skin irritation and dermatitis after direct, prolonged or repeated skin exposure.	
	5	. Firefighting Measures		
Suitable Extinguishing I	Media:		priate for the surrounding fire. This nmercially available extinguishing	
Special Protective Equip	oment for Firefighter	: This product does not require t equipment beyond what is appr	he use of any additional fire fighting ropriate to the surrounding fire.	
	6. A	ccidental Release Measures		
Personal Precautions:		Wear chemical resistant boots, clothing, eye protection, and gloves to prevent skin contact (See Section 8).		
Small Spills:		Identify the spilled material(s). Barricade the spill area and notify others in the surrounding areas. Control all sources of ignition if the substance is flammable. Don the appropriate personal protective equipment (See section 8). Control the movement of the spilled product (into drains, soil, across floors etc.) with absorbent spill materials. Collect contaminated spill material and place in container meeting appropriate U.N. packaging requirements. Decontaminate used equipment and affected spill area appropriately.		
Large Spills:		In addition to small spill precautions, determine personnel evacuation distances. Notify appropriate authorities if necessary.		
Environmental Precautions:		Collect and dispose of contaminated materials according to international, federal, state and local regulations. Keep away from surface and ground water, drains, and soil.		
	7	. Handling and Storage		
Handling:	Handling:		fely handle this product under normal ded personal protective equipment (See exposures. Wash hands with soap and or touching common items (phone, s contamination. Use this product with act technical data sheet for details.	
Storage:		See product technical data sheet for details.		
Specific use:		See product technical data shee	et for details.

Mobility: Glycerol:	Terrestrial Fate: If released to soil, glycerin is expected to undergo rapid biodegradation under aerobic conditions. Biodegradation under anaerobic conditions is also expected to occur. Based on an experimental log octanol/water partition coefficient of -1.76 and its water solubility, 1,220,000 mg/l at 5°C, soil adsorption coefficients for glycerin can be estimated at 3 and 2, respectively, using regression-derived equations. The magnitude of these values indicate that glycerin will display very high mobility in soil. Based on an estimated Henry's Law constant of 1.75X10+11 atm cu-m/mol and vapor pressure, 1.58X10-4 mm Hg at 25°C glycerin is not expected to significantly volatilize from wither moist or dry soil to the atmosphere.
	Aquatic Fate: If released to water, glycerin is expected to rapidly degrade under aerobic conditions. Degradation is also likely in seawater and under anaerobic conditions. Based on an experimental log octanol/water partition coefficient of -1.76 and its water solubility, 1,220,000 mg/l at 5°C, bioconcentration factors for glycerin can be estimated at 3 and 0.2, respectively, using regression-derived equations. The magnitude of these values indicate that bioconcentration in fish and aquatic organisms is not likely to occur to a significant extent. Estimated soil adsorption coefficients of 2 and 3 indicated that adsorption to sediment and suspended organic matter will not be important. Based on an estimated Henry's Law constant of 1.75X10+11 atm cu-m/mol, volatilization of glycerin from water will be slower then for water itself.
	Atmospheric Fate: If released to the atmosphere, glycerin may undergo a gas phase oxidation with photochemically produced hydroxyl radicals. An estimated rate constant for this reaction of 1.7X10-11 cu- cm/molec-sec at 25°C translates to an atmospheric half-life of 33 hrs using an average atmospheric hydroxyl radical concentration of 5X10+5 molec/cu-cm. The water solubility of glycerin, 1,220,000 mg/l at 5°C, indicates that it may also undergo atmospheric removal by wet deposition processes.
Persistence and Degradation: Glycerol:	When incubated with a filtered effluent from a sanitary waste treatment plant, glycerin displayed a 5 day BOD of 82%. Inoculation of glycerin with activated sewage sludge resulted in 43.5-52.9% 5 day BOD. Glycerin underwent 94-97% removal after 24 hrs when incubated with activated sludge from a waste water treatment plant. A 98.7% COD was observed in 120 hrs after inoculation with a adapted activated sludge seed. Incubation with an activated sludge seed gave a 5 day BOD of 68%. Inscreening studies, 5 day BODs for glycerin of 31%, 52% using activated sludge, 78.3 using domestic sludge, and 24.4% using seawater were observed. Glycerin is listed as a substance easily degraded in a sewage treatment plant.
	An estimated rate constant for the vapor-phase reactio of glycerin with photochemically produced hydroxyl radicals of 1.7X10-11 cu cm/molec-sec at 25°C translates to an atmospheric half-life of 33 hr using an average atmospheric hydroxyl radical concentration of 5X10-5 molec/cu cm.
Bio Accumulative Potential: Glycerol:	Based on an experimental log octanol/water partition coefficient of -1.76 and its water solubility, 1,220,000 mg/l at 5°C, bioconcentration factors for glycerin can be estimated at 3 and 0.2, respectively, using regression-derived equations.

	The magnitude of these values indicated and aquatic organisms will not be similarly and aquatic organisms will not be similarly approximately a set of the	cate that bioconcentration of glycerin in fish ignificant.
Results of PBT Assessment: Other Adverse Effects:	Not Available. None Known.	
	13. Disposal Considerations	
	15. Disposar Considerations	
Substance:	Dispose of unused contents in according local regulations.	rdance with international, federal, state, and

16. Other Information		

This information contained herein is believed to be accurate but is not warranted to be so. Data and calculations are based on information furnished by the manufacturer of the product and manufacturers of the components of the product. Users are advised to confirm in advance of need that information is current, applicable and suited to the circumstances of use. Vendor assumes no responsibility for injury to vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Furthermore, vendor assumes no responsibility for injury caused by abnormal use of the material even if reasonable safety procedures are followed. Any questions regarding this product should be directed to the manufacturer of the product as described in Section 1.

VB-4005D-5 Biotinylated dUTP MSDS

1. Identification of the Substance/Mixture and Company		
Product Name Catalog#	Biotinylated dUTP VB-4005D-5	
Product Description	Component	
Manufacturer/Supplier	VitroVivo Biotech, LLC. 405 E Gude Dr., Suite 214, Rockville, MD 20850	
Tel/fax Number	Phone: 301-500-0499; Toll free: 1-800-260-9817 Fax: 844-248-6208	
2. Hazards Identification		

GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200) Not a hazardous substance or mixture.

GHS label elements

Not a hazardous substance or mixture.

Other hazards

None known.

3. Composition/information on ingredients	3. Com	position/info	rmation on	ingredients
---	--------	---------------	------------	-------------

Mixtures Description: Mixture of the substances listed below. **Composition:**

Component Biotinylated dUTP

CAS# 136632-31-0

4. First Aid Measures		
General advice :	Do not leave the victim unattended.	
General auvice .	bo not leave the victum unattended.	
If inhaled :	Move to fresh air.	
	If unconscious, place in recovery position and seek medical advice.	
	If symptoms persist, call a physician.	
In case of skin contact :	If on skin, rinse well with water.	
In case of eye contact :	Immediately flush eye(s) with plenty of water.	
	Remove contact lenses.	
	Protect unharmed eye.	
	If eye irritation persists, consult a specialist.	
If swallowed :	Keep respiratory tract clear.	
	Do not give milk or alcoholic beverages.	
	Never give anything by mouth to an unconscious person.	
	If symptoms persist, call a physician.	
	Rinse mouth with water.	
Most important symptoms and effects, both acute and delayed : None known.		
Notes to physician :	The first aid procedure should be established in consultation with the doctor responsible for industrial medicine.	
	5. Firefighting Measures	
Suitable extinguishing media :	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.	

Specific hazards during fire fighting :	No information available.
Hazardous combustion products :	No hazardous combustion products are known
Further information : that are	Standard procedure for chemical fires. Use extinguishing measures
	appropriate to local cir cumstances and the surrounding environment.

Special protective equipment for fire-fighters : Wear self-contained breathing apparatus for firefighting if necessary.

6. Accidental Release Measures		
Personal precautions, protective equipment and emergency procedures :	Refer to protective measures listed in sections 7 and 8.	
Environmental precautions :	Local authorities should be advised if significant spillages cannot be contained.	
Methods and materials for containment and cleaning up :	Wipe up with absorbent material (e.g. cloth, fleece). Keep in suitable, closed containers for disposal.	
7.	Handling and Storage	
Advice on protection against : fire and explosion	Normal measures for preventive fire protection.	
Advice on safe handling :	For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.	
Conditions for safe storage :	Electrical installations / working materials must comply with the technological safety standards.	
Further information on storage conditions :	See label, package insert or internal guidelines	
Materials to avoid :	No materials to be especially mentioned.	
Further information on storage stability :	No decomposition if stored and applied as directed	
8. Exposure Controls/Personal Protection		

Ingredients with workplace control parameters Contains no substances with occupational exposure limit values.

Engineering measures :	No data available
Personal protective equipment Respiratory protection :	No personal respiratory protective equipment normally required.
Hand protection	In case of contact through splashing:
Material :	Nitrile rubber Break through time : > 30 min Glove thickness : > 0.11 mm In case of full contact:
Material :	butyl-rubber Break through time : > 480 min Glove thickness : > 0.4 mm
Remarks :	Wear appropriate protective gloves to prevent skin contact. Replace torn or punctured gloves promptly.
Eye protection :	Safety glasses
Skin and body protection :	Protective suit

Hygiene measures :

Handle in accordance with good industrial hygiene and safety practice.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Physical State: Liquid
Appearance: clear, colorless
Odor: none
pH: Not available.
Vapor Pressure: Not available.
Vapor Density: Not available.
Evaporation Rate: Not available.
Viscosity: Not available.
Boiling Point: Not available.
Freezing/Melting Point: Not available.
Decomposition Temperature: Not available.
Solubility: Soluble.
Specific Gravity/Density: Not available.
Molecular Formula: Solution
Molecular Weight: Not available.

10 Stability and Reactivity		
Reactivity :	No dangerous reaction known under conditions of normal use.	
Chemical stability :	Stable under normal conditions.	
Possibility of hazardous reactions :	No dangerous reaction known under conditions of normal use. Stable under recommended storage conditions. No hazards to be specially mentioned.	
Conditions to avoid :	Exposure to light.	
Incompatible materials :	Strong oxidizing agents	
Hazardous decomposition products : No decomposition if stored and applied as directed.		

11. Toxicological Information

Acute toxicity

Not classified based on available information.

Skin corrosion/irritation

Not classified based on available information.

Serious eye damage/eye irritation Not classified based on available information.

Respiratory or skin sensitization Skin sensitization

Not classified based on available information.

Respiratory sensitization Not classified based on available information.

Germ cell mutagenicity Not classified based on available information.

Carcinogenicity Not classified based on available information.

IARC	No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA	No component of this product present at levels greater than or equal to 0.1% is
	on OSHA's list of regulated carcinogens.
NTP	No ingredient of this product present at levels greater than or equal to 0.1% is
	identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity

Not classified based on available information.

STOT-single exposure

	12. Ecological Information
Ecotoxicity	
No data available	
Persistence and degradability	
No data available	
Bioaccumulative potential	
No data available	
Mobility in soil	
No data available	
Other adverse effects	
Product: Ozone-Depletion Potential :	Regulation: 40 CFR Protection of Environment; Part 82 Protection of Stratospheric Ozone - CAA Section 602 Class I Substances
	Remarks: This product neither contains, nor was manuface tured with a Class I or Class II ODS as defined by the U.S. Clean Air Act
	Section 602 (40 CFR 82, Subpt. A, App.A + B).
	13. Disposal Considerations
Disposal methods	
Waste from residues :	Can be disposed as waste water, when in compliance with local regulations.
Contaminated packaging :	Empty containers should be taken to an approved waste handling site
	for recycling or disposal. Do not re-use empty containers.
	14. Transport Information

International Regulations

UNRTDG Not regulated as a dangerous good

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable Domestic regulation 49 CFR Not regulated as a dangerous good

Special precautions for user

Remarks :

Not dangerous goods in the meaning of ADR/RID, ADN, IMDG-Code, ICAO/IATA-DGR

15. Regulatory Information

CERCLA Reportable Quantity

This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

SARA 311/312 Hazards :	No SARA Hazards
SARA 313 :	This material does not contain any chemical components with known
	CAS numbers that exceed the threshold (De Minimis) reporting
	levels established by SARA Title III, Section 313.

Clean Air Act

This product neither contains, nor was manufactured with a Class I or Class II ODS as defined by the U.S. Clean Air Act Section 602 (40 CFR 82, Subpt. A, App.A + B).

This product does not contain any hazardous air pollutants (HAP), as defined by the U.S. Clean Air Act Section 112 (40 CFR 61).

This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).

This product does not contain any chemicals listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC's (40 CFR 60.489).

Clean Water Act

This product does not contain any Hazardous Substances listed under the U.S. CleanWater Act, Section 311, Table 116.4A.

This product does not contain any Hazardous Chemicals listed under the U.S. CleanWater Act, Section 311, Table 117.3.

This product does not contain any toxic pollutants listed under the U.S. Clean Water Act Section 307. This product does not contain any priority pollutants related to the U.S. Clean Water Act.

US State Regulations

Massachusetts Right To Know

No components are subject to the Massachusetts Right to Know Act.

<u>Mixtures</u>

This mixture does not contain any substances to be mentioned according to the criteria of section 3.2 of HazCom 2012

	4. First Aid Measures		
Description of first aid measures			
First-aid measures after inhalation :	Remove person to fresh air and keep comfortable for breathing		
First-aid measures after skin contact :	Wash skin with plenty of water.		
First-aid measures after eye contact :	Rinse eyes with water as a precaution.		
First-aid measures after ingestion :	Call a poison center/doctor/physician if you feel unwell.		
Most important symptoms and effects (acu	<u>te and delayed)</u>		
No additional information available			
Immediate medical attention and special tr	reatment, if necessary		
Treat symptomatically.			
5. Firefighting Measures			
Suitable (and unsuitable) extinguishing me	dia		
Suitable extinguishing media :	Water spray. Dry powder. Foam. Carbon dioxide.		

Specific hazards arising from the chemical Hazardous decomposition products in case of fire : Toxic fumes may be released.

Special protective equipment and precautions for fire-fighters Protection during firefighting : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

6. /	Accidental Release Measures
Personal precautions, protective equipment	and emergency procedures
For non-emergency personnel	
Emergency procedures :	Ventilate spillage area.
For emergency responders	
Protective equipment :	Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".
Environmental precautions Avoid release to the environment.	
Methods and material for containment and	
Methods for cleaning up : Other information :	Take up liquid spill into absorbent material. Dispose of materials or solid residues at an authorized site.
Reference to other sections For further information refer to section 13.

10 Stability and Reactivity

Reactivity

No known reactivity.

Chemical Stability

Stable under normal conditions.

Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

Conditions to Avoid

None under recommended storage and handling conditions (see section 7).

Incompatible Materials

No additional information available.

Hazardous Decomposition Products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. Toxicological Information

Information on toxicological effects

Acute toxicity (oral) :	Not classified
Acute toxicity (dermal) :	Not classified

3. Composition/information on ingredients

Mixtures Description: Mixture of the substances listed below. Composition:

•	Component Propylene glycol		CAS# 57-55-6	
	DAB		91-95-2	
		4.	First Aid Measures	

Description of first aid measures

General advice

Consult a physician if symptoms are severe or persistent. Provide this data sheet to medical personnel. If product is spilled or leaked, evacuate area.

In case of inhalation

If inhaled, move person to fresh air and monitor breathing. If not breathing, give artificial ventilation. Consult a physician if symptoms are severe or persistent.

In case of skin contact

Immediately wash with excess soap and water. If spilled on clothing, remove all affected clothing. Consult a physician if symptoms are severe or persistent.

In case of eye contact

Flush eyes with water or eye wash solution as a precaution for 15 minutes. Consult a physician if symptoms are severe or persistent.

In case of ingestion

Only induce vomiting if recommended by medical personnel. If subject is unconscious, do not give anything by mouth. If conscious, rinse mouth with water. Consult a physician if symptoms are severe or persistent.

Most important symptoms and effects, both acute and delayed

All known important symptoms are described in Section 2 and/or Section 11. No other important symptoms to report.

Indication of any immediate medical attention and special treatment needed

No special treatment indicated. Provide treatment in accordance with exhibited systems.

5. Firefighting Measures

Suitable extinguishing media

Water spray, alcohol-resistant foam, dry chemical, and carbon dioxide extinguishers are suitable.

Unsuitable extinguishing media

No known unsuitable extinguishing media.

Special hazards arising from the substance

Carbon oxides, nitrogen oxides (NOx)

Advice for firefighters

Wear protective gear, such as self-contained breathing apparatus, if necessary

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Provide suitable ventilation. Use any necessary personal protective equipment. Avoid contact with skin and eyes, and avoid creation and inhalation of vapor or dust. Keep all unnecessary personnel away. **For personal protection see section 8**

Environmental precautions

Prevent product from entering public sewers and waterways.

Methods and material for containment and cleaning up

Use inert absorbent material to absorb any spilled or leaked product. Keep in suitable, closed containers for disposal. For proper disposal see section 13

7. Handling and Storage	

Precautions for safe handling

Provide suitable ventilation. Wear any necessary personal protective equipment. For precautions see section 2

<u>Conditions for safe storage, including any incompatibilities</u>	
Storage conditions :	Store upright, closed container in arid, ventilated environment. Storage
	Temperature: 2-8°C Product is sensitive to light.

Incompatible materials :	Strong oxidizing agents are incompatible with this product.

8. Exposure Controls/Personal Protection

Control parameters

This product is not known to contain any substances with occupational exposure limit values.

Engineering controls

Follow good industrial hygiene and safety practices when handling product.

<u>Personal protective equipment</u> Eye/face protection :	Use only government-approved safety glasses with side-shields.
Skin protection :	Use gloves when handling product. Inspect gloves before use to ensure suitability for use. Remove without exposing skin to the gloves outer surface. Discard used gloves according to all pertinent laws and/or current good practices (cGXP). Wash hands with soap and water.
Body protection :	Wear appropriate clothing. Ensure clothing is in good condition, with no holes or tears. When selecting clothing, consider the concentration and amount of substance to be handled.
Respiratory protection :	Use only approved respirators and components which comply with CDC and NIOSH (US) or CEN (EU) regulations. Required only when vapors or aerosols are created.
Control of environmental exposure :	Prevent product from entering the environment, especially through public sewers or waterways.
General hygiene considerations :	Comply with general industrial hygiene practice guidelines.
	9. Physical and Chemical Properties

Information on basic physical and chemical properties

Physical State: Liquid Appearance: brown Odor: weak odor pH: Not available. Vapor Pressure: Not available. Vapor Density: >1.0 Evaporation Rate: Not available. Viscosity: Not available. Boiling Point: > 100 deg C Freezing/Melting Point: > 0 deg C Decomposition Temperature: Not available. Solubility: Soluble. Specific Gravity/Density: Not available. Molecular Formula: Solution Molecular Weight: Not available.

10 Stability and Reactivity

Reactivity

No special reactivity is known.

Chemical stability

Product is stable when stored and used as recommended.

Stability note(s)

Avoid exposing the product to light.

Polymerization

No known polymerization.

Possibility of hazardous reactions

No hazardous reactions are known.

Incompatible materials

Strong oxidizing agents are incompatible with this product.

Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. Toxicological Information

Acute toxicity

LD50 Oral :

Mouse - 1834 mg/kg LD50 Dermal : No toxicity data available.

LC50 Inhalation :

No toxicity data available.

Skin corrosion/irritation

No skin/corrosion irritation data available.

Serious eye damage/eye irritation

No eye damage/irritation data available.

Respiratory or skin sensitization

No sensitization data available.

Germ cell mutagenicity

In vitro tests have shown that this product causes unscheduled DNA synthesis and other mutagenic effects.

<u>Carcinogenicity</u> IARC :	Product and components are not regulated by the IARC.
ACGIH :	Product and components are not regulated by the ACGIH.
NTP :	Product and components are not regulated by the NTP.
OSHA :	Product and components are not regulated by OSHA.

<u>Reproductive toxicity</u> No reproductive toxicity data available.

Specific target organ toxicity - single exposure

No specific organ toxicity data available.

Specific target organ toxicity – repeated exposure

No specific organ toxicity data available.

Aspiration hazard

No aspiration hazard data available.

Additional Information

RTECS: DV8750000.

12. Ecological Information

Toxicity

No ecological toxicity data available.

Aquatic toxicity

No aquatic toxicity data available.

Persistence and degradability

No persistence/degradability data available.

Bioaccumulative potential

No bioaccumulation data available.

<u>Mobility in soil</u> No soil mobility data available.

Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment is not required/was not conducted.

Other adverse effect

No other adverse effect data available.

13. Disposal Considerations

Product

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult and adhere to local, regional, and national hazardous waste regulations to ensure complete and accurate classification.

Packaging

Packaging should be disposed of in the same manner as unused product.

Recommendation

Disposal must be made according to official regulations.

14. Transport Information

DOT (US)

Not a dangerous good under DOT(US) regulations.

IMDG

Not a dangerous good under IMDG regulations.

<u>IATA</u>

Not a dangerous good under IATA regulations.

15. Regulatory Information

<u>SARA</u>

VB-4005D In Situ TUNEL DAB Apoptosis Detection Kit MSDS

SARA 302:	This product and components are not subject to the reporting requirements of SARA Title III, Section 302.	
SARA 313:	This product does not contain any components with known CAS numbers that exceed the threshold reporting levels established by SARA Title III, Section 313.	
SARA 311/312:	Acute Health Hazard, Chronic Health Hazard 15.2 Clean water act (CWA) No chemicals are present in this product that are subject to regulation under the Clean Water Act.	
Right to know components		
Massachusetts :	No chemicals are present which require disclosure under the Massachusetts Right to Know Act.	
Pennsylvania :	Biphenyl-3,3',4,4'-tetrayltetraamine CAS No.: 91-95-2	
New Jersey :	Biphenyl-3,3',4,4'-tetrayltetraamine CAS No.: 91-95-2	
California proposition 65 components : This product contains no chemicals which are known to the State of California to cause cancer, or birth defects or other reproductive harm.		

16. Other Information

This information contained herein is believed to be accurate but is not warranted to be so. Data and calculations are based on information furnished by the manufacturer of the product and manufacturers of the components of the product. Users are advised to confirm in advance of need that information is current, applicable and suited to the circumstances of use. Vendor assumes no responsibility for injury to vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Furthermore, vendor assumes no responsibility for injury caused by abnormal use of the material even if reasonable safety procedures are followed. Any questions regarding this product should be directed to the manufacturer of the product as described in Section 1.

Abbreviations and acronyms:

ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)

IMDG: International Maritime Code for Dangerous Goods

DOT: US Department of Transportation

IATA: International Air Transport Association

ACGIH: American Conference of Governmental Industrial Hygienists

NFPA: National Fire Protection Association (USA)

HMIS: Hazardous Materials Identification System (USA)

VB-4005D-8 Stable DAB buffer MSDS

1. Identification of the Substance/Mixture and Company		
Product Name Catalog# Product Description	Stable DAB buffer VB-4005D-8 Component	
Manufacturer/Supplier	VitroVivo Biotech, LLC. 405 E Gude Dr., Suite 214, Rockville, MD 20850	
Tel/fax Number	Phone: 301-500-0499; Toll free: 1-800-260-9817 Fax: 844-248-6208	

2. Hazards Identification

Classification of the substance or mixture

Appearance: clear, colorless liquid

Caution! May cause eye, skin, and respiratory tract irritation. This is expected to be a low hazard for usual handing. **Target Organs**: none

Potential Health Effects

Eye: Maycause eye irritation. **Skin:** May cause skin irritation. **Ingestion:** May cause respiratory of the digestive. Low hazard for usual industrial handing. **Chronic:** No information found.

3. Composition/information on ingredients

First Aid Measures

Mixtures Description: Mixture of the substances listed below.

CAS#
13472-36-1
1185-53-1
7722-84-1

4.

Description of first aid measures

Inhalation	Move affected person to fresh air at once. Keep affected person warm and at rest. Get medical attention immediately.	
Ingestion	Do NOT induce vomiting. If conscious and alert, rinse mouth and drink 2-4 cupfuls of milk or water. Wash mouth out with water. Get medical aid if irritation or symptoms occur.	
Skin contact	Rinse immediately with plenty of water. Remove contaminated clothing. Get medical attention promptly if symptoms occur after washing.	
Eye contact	Rinse immediately with plenty of water. Continue to rinse for at least 15 minutes. Get medical attention promptly if symptoms occur after washing.	
Indication of any immediate medical attention and special treatment needed		
Notes for the doctor	Treat symptomatically and supportively.	
5. Firefighting Measures		

General Information

As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. Non-combustible, substance itself does not burn but may decompose upon heating to produce irritating, corrosive and/or toxic fumes.

Extinguishing Media

Substance is noncombustible; use agent most appropriate to extinguish surrounding fire.

Flash Point:Not applicable.Autoignition Temperature:Not applicable.Explosion Limits, Lower:Not available.Upper:Not available.NFPA Rating: (estimated) Health: 1; Flammability: 0; Instability: 0

6. Accidental Release Measures

General Information

Use proper personal protective equipment as indicated in Section 8.

Spills/Leaks

Avoid runoff into storm sewers and ditches which lead to waterways. Clean up spills immediately, observing precautions in the Protective Equipment section. Absorb spill using an absorbent, non-combustible material such as earth, sand, or vermiculite. Do not use combustible materials such as sawdust. Provide ventilation.

7. Handling and Storage

Handling

Wash thoroughly after handling. Wash thoroughly after handling. Avoid contact with eyes, skin, and clothing. Keep container tightly closed. Avoid ingestion and inhalation. Use with adequate ventilation.

Storage

Store in a tightly closed container. Store in a cool, dry, well-ventilated area away from incompatible substances. No special precautions indicated.

8. Exposure Controls/Personal Protection

Engineering Controls

Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use adequate ventilation to keep airborne concentrations low.

Exposure Limits

Chemical Name	ACGIH	NIOSH	OSHA - Final PELs
Sodium pyrophosphate	none listed	none listed	none listed
Tris, Hydrochloride	none listed	none listed	none listed
H ₂ O ₂	none listed	none listed	none listed

Personal Protective Equipment

Eyes: Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Skin: Wear appropriate protective gloves to prevent skin exposure.

Clothing: Wear appropriate protective clothing to minimize contact with skin.

Respirators: Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Physical State: Liquid Appearance: clear, colorless Odor: weak odor pH: 7.5 Vapor Pressure: Not available. Vapor Density: >1.0 Evaporation Rate: Not available. Viscosity: Not available. Boiling Point: > 100 deg C Freezing/Melting Point: > 0 deg C Decomposition Temperature: Not available. Solubility: Soluble. Specific Gravity/Density: Not available. Molecular Formula: Solution Molecular Weight: Not available.

10 Stability and Reactivity

Chemical Stability: Stable. Conditions to Avoid: Incompatible materials, excess heat. Incompatibilities with Other Materials: Strong acids, strong bases. Hazardous Decomposition Products: Carbon monoxide, carbon monoxide, carbon dioxide. Hazardous Polymerization: Has not been reported

11. Toxicological Information

Information on toxicological effects

Toxicological effects Skin corrosion/irritation	No information available.	
Extreme pH		
Serious eye damage/irritation	Not determined.	
Germ cell mutagenicity		
Genotoxicity - in vitro	Not determined.	
Genotoxicity - in vivo	Not determined.	
Carcinogenicity	Not determined.	
Reproductive toxicity - fertility	Not determined.	
Specific target organ toxicity - single	exposure	
STOT - single exposure	Not determined.	
Specific target organ toxicity - repeated exposure		
STOT - repeated exposure	Not determined.	
Aspiration hazard	Not determined.	
General information	No specific health hazards known.	
Epidemiology:	No information found	

12. Ecological Information

	٠	• .	
1.02	716	νtr	r
101		1.1	

Acute toxicity - fish	Not determined.	
Persistence and degradability		
Persistence and degradability	There are no data on the degradability of this product.	
Bioaccumulative potential		
Bioaccumulative potential	No data available on bioaccumulation.	
Partition coefficient	Not determined.	
<u>Mobility in soil</u>		
Mobility	The product is soluble in water.	
Results of PBT and vPvB assessment		

Results of PBT and vPvB assessment No information available

Other adverse effects

Other adverse effects	Not determined.		
	13. Disposal Considerations		
Waste treatment methods			
General information	When handling waste, the safety precautions applying to handling of the		
Disposed methods	product should be considered.		
Disposal methods	Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.		
	14. Transport Information		
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).		
Road transport notes	Not classified.		
Rail transport notes	Not classified.		
Sea transport notes Air transport notes	Not classified. Not classified.		
An transport notes	Not classifica.		
<u>UN number</u>	Not applicable.		
UN proper shipping name	Not applicable.		
Transport hazard class(es)	Not applicable.		
Packing group	Not applicable.		
Environmental hazards			
Environmentally hazardous subs	stance/marine pollutant No.		
Special precautions for user	Not applicable.		
Transport in bulk according to A	Annex II of MARPOL73/78 and the IBC Code		
Transport in bulk according to A	Annex II of MARPOL 73/78 and the IBC Code Not applicable.		
	15. Regulatory Information		
Safety, health and environmenta	l regulations/legislation specific for the substance or mixture		
EU legislation	Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).		
Guidance	Workplace Exposure Limits EH40. Approved Classification and Labelling Guide (Sixth edition) L131. Safety Data Sheets for Substances and Preparations.		
Chemical safety assessment	No chemical safety assessment has been carried out.		

16. Other Information

This information contained herein is believed to be accurate but is not warranted to be so. Data and calculations are based on information furnished by the manufacturer of the product and manufacturers of the components of the product. Users are advised to confirm in advance of need that information is current, applicable and suited to the circumstances of use. Vendor assumes no responsibility for injury to vendee or third persons proximately caused by the material if reasonable safety procedures are not adhered to as stipulated in the data sheet. Furthermore, vendor assumes no

responsibility for injury caused by abnormal use of the material even if reasonable safety procedures are followed. Any questions regarding this product should be directed to the manufacturer of the product as described in Section 1.

VB-4005D-9 TUNEL positive FFPE slides MSDS

1. Identification of the Substance/Mixture and Company		
Product Name	TUNEL positive FFPE slides	
Catalog#	VB-4005D-9	
Product Description	Component	
Manufacturer/Supplier	VitroVivo Biotech, LLC. 405 E Gude Dr., Suite 214, Rockville, MD 20850	
Tel/fax Number	Phone: 301-500-0499; Toll free: 1-800-260-9817 Fax: 844-248-6208	

2. Hazards Identification

GHS-Classification Signal Word

Not Hazardous

Health Hazard Not Hazardous

Physical Hazards Not Hazardous

Principle Routes of Exposure/Potential Health Effects

Eyes	May be harmful if exposed to eyes. May cause eye irritation, watering eyes, stinging or burning sensation.
Skin	May be harmful if exposed to skin. May cause skin irritation, itching, redness or inflammation.
Inhalation	May be harmful if inhaled. May cause respiratory tract irritation, headache,
	dizziness, nausea or coughing.
Ingestion	May be harmful if swallowed. May cause irritation of gastrointestinal tract,
	nausea, or vomiting.
Specific Effects	
Carcinogenic Effects	None
Mutagenic Effects	None
Reproductive Toxicity	None
Sensitization	None
Target Organ Effects	No known effects under normal use conditions.
WHMIS	
Health	0
Flammability	0
Reactivity	0

3. Composition/information on ingredients

The product contains no substances which at their given concentration, are considered to be hazardous to health. We recommend handling all chemicals with caution.

4. First Aid Measures		
Eye Contact	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.	
Skin Contact	Wash off with soap and plenty of water. Consult a physician.	
Inhalation	If breathed in, move person into fresh air. If not breathing give artificial respiration Consult a physician.	
Ingestion	Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.	
5. Firefighting Measures		

VB-4005D In Situ TUNEL DAB Apoptosis Detection Kit MSDS

Suitable Extinguishing Media	Use water spray, alcohol- resistant foam, dry chemical or carbon dioxide.			
Special Protective	Wear self-contained breathing apparatus and protective clothing to prevent contact with eyes and skin.			
Equipment for Fire-fighters				
Unusual Fire	N/A			
Explosions Hazard(s)	N/A			
Flash Point	N/A			
Autoignition Temp	N/A			
Flammability	N/A			
	6. Accidental Release Measures			
Personal Precautions	Exercise appropriate precautions to minimize direct contact with skin or eyes and prevent inhalation of vapors. Wear disposable coveralls and discard them after use.			
Methods for Cleaning-up	Soak up with inert absorbing materials and place in a closed container for disposal. Ventilate area and wash spill site after material pickup is complete.			
Environmental Precautions	Prevent further leakage or spillage if safe to do so. See Section 12 for additional information.			
7. Handling and Storage				
Handling	Always wear recommended Personal Protective Equipment. Avoid contact with eyes, skin and clothing. Do not ingest. Wash hands thoroughly after use.			
Storage	Keep cap tightly closed. Keep container in a cool, well-ventilated area.			
8. Exposure Controls/Personal Protection				

Exposure Limits

No known exposure limits.

Engineering Measures

Ensure adequate ventilation, especially in confined areas.

Personal Protective Equipment

Personal Protective Equipment Person protective Equipment requirements are dependent of the user institution's risk assessment, and are specific to the risk assessment for each laboratory where this material may be used.

Respiratory Protection	Wear Suitable respiratory equipment if ventilation is insufficient.
Hand	Compatible chemical-resistant gloves.
Eye	Compatible safety goggles.
Skin and Body Protection	Lightweight protective clothing.
Hygiene Measures	Handle in accordance with good industrial hygiene and safety practice.

Environmental Exposure Controls

No special environmental precautions required.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Physical State: Solid Appearance: clear Odor: odorless pH: Not available. Vapor Pressure: Not available. Vapor Density: Not available. Evaporation Rate: Not available. Viscosity: Not available.
